Subject: Invitation to Collaborate: OpenSOC SEA-NREN Cybersecurity Initiative

Dear Potential Partner,

Firstly, I wish you and your organization Happy New Year 2026.

As the new year progresses, many organisations are setting priorities and reviewing initiatives for the period ahead. In this context, we would like to share an update on a regional cybersecurity initiative currently being undertaken by BitRanger, a Malaysian cybersecurity company and recipient of the ISIF Asia 2025 grant awarded by the APNIC Foundation.

Through this grant, we are implementing the **OpenSOC SEA-NREN Initiative Project**, which focuses on **strengthening cybersecurity resilience** among **National Research and Education Networks (NRENs)** in **Southeast Asia** through capacity-building for open-source Security Operations Centres (SOCs). For further elaboration on the project, please feel free to peruse the PDF attached within this email.

As we move into the project's initial phase, we are seeking to engage a group of committed partner organisations. Your organisation has been identified as a **potential collaborator**, and we would appreciate your input via a short survey to help us understand your current cybersecurity posture, key needs, existing capabilities, and potential level of participation should you be selected as a project partner.

Survey Link: <https://forms.microsoft.com/r/qziEqBttjD>

The information provided will be used to help shape the project design and ensure meaningful engagement. We would be grateful if you could complete the survey by **16 January 2026**. We will get back to you the following week.

Thank you for your time and consideration. We look forward to the possibility of working together.

For any further information, you can reach out to us via opensoc@bitranger.io

Kind regards,

Best Wishes,

Dr. Shankar Karuppayah
